Superpro micron700

Micron 700 is specifically designed for Chemical Laboratories, High Tech Laboratories and Infection Control-Critical Hospital Wards.

Pacvac prides itself on ensuring all products are produced to comply with the highest health and safety regulations. The Micron 700 is manufactured in full compliance with electrical standards, being Australian and International Standard IEC 60335-2-2. The filter is specifically built to standards AS3544 and AS4260.

The Micron 700 is also accepted by the Carpet Rug Institute, Chiropractors' Association of Australia, Health and Safety Matters Pty Ltd and many other Occupational Health and Safety organisations. For further information on our accreditations please refer to our website at www.pacvac.com

Features:

- Ametek 1000 watt 2 stage motor.
- Cyclonic airflow from the offset inlet clear dome lid gives stronger, more consistent airflow – more vacuuming power.
- 4 stage HEPA filtration.
- Ergonomically designed frame - new extended 'body-moulded' frame for increased comfort and anatomically correct posture – a critical OH & S factor.

- Adjustable Harness - Thicker, padded and fully adjustable to fit all body types.
- Two piece wand and combination floor tool as standard.
- Double looped cord restraint - prevents accidental disconnection of power cord.

Free:

- Crevice tool, dusting brush and upholstery tool supplied.
- Extra cloth dust bag.
- Packet of 5 paper bags.

Superpro micron700 Specification:

Rated Power: 1000 watts
Voltage: 240 volts
Motor Type: Flowthrough
Airflow: 39 litres per second

Noise level: 65dBa
Filtration: 4 stage HEPA, 99.995% efficiency at 0.3 micron
Tank Capacity: 5 litres
Weight: 5.3kg
Warranty: 2 years on body, 12 months on motor.
