

TwinTec

The Compact Single Disc

The TwinTec 1840 cable machine has been designed to address the question of size being exceptionally compact, yet with performance equal to bigger machines.

The compact design really does allow this machine to clean in areas normally cleaned by hand, yet 30% to 40% faster and better.

Although designed for small and congested areas the TT1840G is equally at home in larger areas and can be used in conjunction with our cable roll, "the cable reel that rolls", extending the cable length from 20m to 40m without any loss of performance.

The style and proportion of the polyform water tanks allow for the machine to adopt a convenient tilt position with only approximately 5 litres in the clean water tank to facilitate single handed brush or pad changing.

TT1840G

20m Cable reel (optional)

- **Water Feed System**

360° liquid feed for uniform delivery.

- **Convenient**

Fold flat design for easy transport from site to site.

- **Rugged Construction**

Tough all steel chassis design.

- **Fully Adjustable Handle**

For the perfect working position.

- **Low Noise**

Quieter, unobtrusive design means true versatility.

- **Easy Change**

Easy one handed brush or pad changing.

Visible operation

Simple controls

Easy and generous fill cap
